

FOR IMMEDIATE RELEASE

(Little Rock, AR; July 8, 2010) Equity analysts at Stephens Inc. have recently received national attention by two separate industry surveys. *The Wall Street Journal*, in its 18th annual analysts survey published in May 2010, recognized Rick Nelson as this year's top stock picker for the Specialty Retailers and Services sector. Seven Stephens' analysts were cited in the annual *Financial Times/StarMine* Analysts Awards, which were also released in May 2010.

"At Stephens we have always focused on having the best people who in turn provide objective and quality information. This recognition validates that commitment," said Nik Fiskens, Stephens' Director of Research.

Mr. Nelson, who has covered the retail sector for Stephens Inc. for 12 years, is a four-time finalist of the Best on the Street award. In 2009, he correctly predicted that gun lovers and outdoor enthusiasts would feel threatened by the new presidential administration and upgraded shares of outdoor retailer **Cabela's Inc.** The Company's share price more than doubled. Nelson also believed that sporting goods chains would benefit from a less discretionary merchandise mix. His buy rating on **Hibbett Sports Inc.**, a sporting goods retailer that specializes in small and rural markets, saw a return of 40% for the year. In early 2009, he upgraded the shares of automotive dealers given their deeply discounted valuations and the earnings power in a recovery scenario. **Group 1 Automotive, Inc.** returned over 50% since the upgrade.

Each year the StarMine Analysts Awards recognize analysts who excel either as stock pickers or earnings estimators for the previous year. Stephens' analysts who were honored among the top three in the stock picking category were:

Alexander Brand—Air Freight & Logistics
Trey Grooms—Construction Materials
Shawn Fitz—Health Care Equipment & Supplies
Greg Ruedy—Restaurants

Three analysts were recognized by StarMine for their efforts in the area of earnings estimation. They are:

Farah Aslam—Food Products
Matt Duncan—Trading Companies and Distributors
Matt Olney—Commercial Banks

The Stephens Research Department consists of approximately 60 research professionals, of which 25 are senior analysts, covering over 321 companies within 9 industry sectors and 26 sub-sectors. The department has branch offices located in New York, Dallas, Houston, Chicago and Richmond.

Founded in 1933, Stephens is a privately held, independent financial services firm focused on building value for companies, state and local governments, institutions, and high-net-worth investors.

Stephens is headquartered in Little Rock, Arkansas, with offices in leading cities across the country.
